Thanks Casey,

I made a few edits in the summary below to the DM.

All - just finished a call with the DM with the Federal gov't and Ottawa police. SOLGEN and MMAH Deputies were also in attendance.

It was largely a situational update by the Ottawa Chief of Police, so I am not sharing notes on that, but a couple notes:

- Federal Ministers will be doing call at 1:00
- Federal Ministers looking to meet with SOLGEN Minister, Mayor of Ottawa
- Continued to raise the notion of a playbook to support police with consequences of actions
- Ottawa Police Chief raised issues of misinformation and reputational harm
  - Gave situational brief
  - Called for a single message and support for all levels of government

**Importance:** High

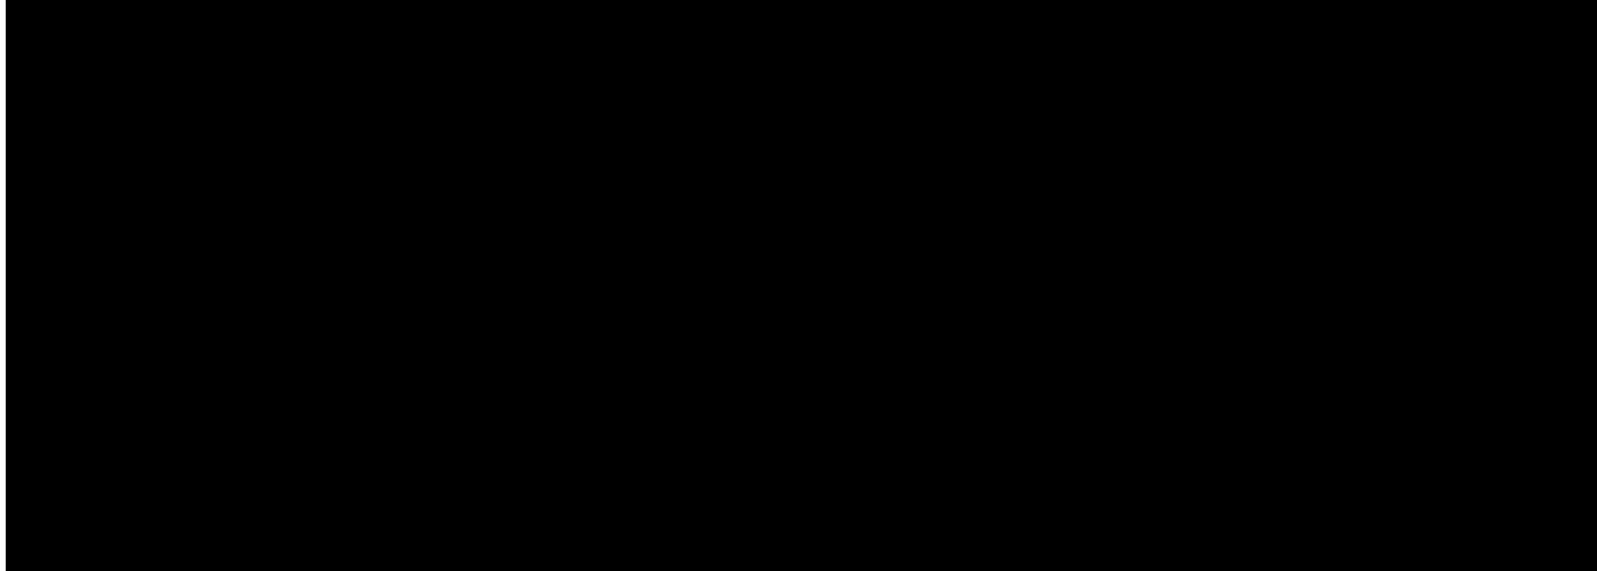

Deputy,

Here are the key notes from this mornings meeting, it was essentially a repeat of what TC was looking to do yesterday with the DMs:

PPSC representatives from most provinces attended.

**Key Points:**

ON:

- SOLGEN is the Ontario lead for anything to do with enforcement of legal regulatory authority. Communications/requests should go through them to ensure consistency and nothing taken out of context
  - In Ontario licence demerits and operator registration points are affected by convictions, not charges, and requires due process around pre-notification, and appeals. There can be a significant lag time.
  - MTO enforcement is ready to assist with commercial vehicle enforcement that supports its road safety mandate at the request of police.
